

# 50<sup>th</sup> Reunion - September 6-8, 2013

## Friday, September 6th

For anyone who hits town early, plan to join us in the bar area on the first floor of the Renaissance Hotel about 6:00 pm or so.

We will be enjoying their no host Happy Hour, which is said to be quite good. This is a good time to break the ice (so to speak) with classmates you may not have seen in over fifty years!

## Saturday, September 7th

### During the Day

For those interested in seeing what Leuzinger looks like fifty years after we graduated, we will be coordinating a visit to our old Foot-Stomping (Remember the dance?) grounds sometime during the day.

Sorry we can't be more specific at this point. The visit itself will vary from a tour by a school official to a car-pooled drive-by and walk around, depending upon the school's involvement. We've probably all seen pictures on the internet from time to time, but there have been some big changes to the school that must be seen in person.

### Saturday Evening

The main event will commence at the Renaissance Long Beach Hotel at 6:00 with a social hour, followed by a sit-down dinner, socializing, the formal program, and dancing to DJ Paul until midnight.

### Goodies

Each classmate attending the reunion will receive a Memory Book as you arrive filled with the questionnaires received from all of your classmates.

### *Questionnaires to be distributed soon.*

We will introduce each attendee via video, take a group photo, and take candid photos and video throughout the evening and during other activities the entire weekend.

These will be compiled into a DVD mailed to each attending classmate, soon after the reunion.

## Sunday, September 8<sup>th</sup>

### Impromptu Breakfast

Don't be surprised if you end up making plans to meet for breakfast this morning at one of the close by restaurants with friends you have reconnected with Saturday.

### Spend the Day on Catalina

For those who want to relive our Senior Ditch Day, a group of us will be spending the day on Catalina. The bad news is it won't be on the Big White Steamer. The good news is the trip is shorter and smoother if you forget your sea legs.
